CUSTOMER ACCT: _____

TELEPHONE NUMBER: _____

REASON FOR WASTEWATER ADJUSTMENT:

HISTORY ATTACHED: _____

- 1.) WATER LINE LEAK: _____
- 2.) FILLED POOL: _____
- 3.) OTHER: _____

In case of a user utilizing more than 8,000 gallons of water per month and who can substantiate to the City that a portion of the water does not and cannot enter the sewerage system, the Board of Public Works shall either determine the portion of the measured water to be used in determining the appropriate sewer charges, or approve the manner and technique of flow measurement provided by the user for determining wastewater discharged to the sewerage system. Facilities utilized to accomplish this shall be installed and maintained in a serviceable condition by the user at his or her expense. The City shall have the right to access to the flow measurement at all times in order to verify the accuracy of the equipment and obtain samples.
